

PERFORMANCE IS EVERYTHING

A world of heat transfer solutions.

At API Heat Transfer, everyone works toward the same goal: to be the leading provider of heat transfer solutions, capable of meeting all of our customers' needs through one global source. And it's our dedication to performance in four key areas that sets us apart.

IRON RIDGE, WISCONSIN

BUFFALO, NEW YORK

FRANKLIN, WISCONSIN

RACINE, WISCONSIN

Global presence.

API Heat Transfer has a global network of sales, engineering, and manufacturing capabilities to provide our customers with industry-leading heat transfer solutions. Our global presence allows us to build products where it makes the most business sense and provide outstanding customer service on a local basis.

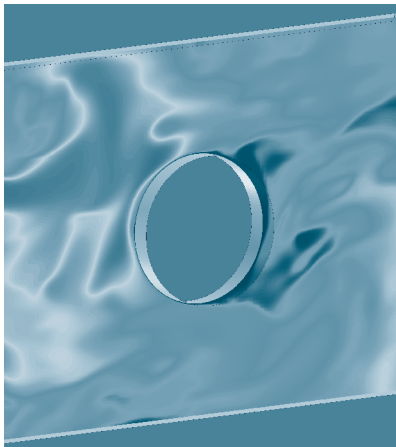

Market expertise.

Our know-how allows us to work with customers on an engineer-to-engineer level. We understand your market-specific applications and have the experience necessary to recommend the right heat transfer solution for your individual needs.

Industries we serve:

- Air cooled
- Compressor
- Data centers
- Fluid power
- Food and beverage
- General industrial
- HVAC
- Oil and gas
- Power generation
- Process industries

Product development.

Our understanding of heat transfer technologies allows us to innovate and continuously improve our offerings. At our modernized testing facilities, we're able to validate our designs prior to application, ensuring product performance in the field – where it counts.

- State-of-the-art product test lab and data acquisition system
- Commercial and proprietary software to ensure accuracy and improve productivity
- Fluid flow analysis using Computational Fluid Dynamics
- Thermal, metallurgical, and materials engineering

BRETTEN, GERMANY

SUZHOU, CHINA (2)

SHANGHAI, CHINA

Comprehensive solutions.

At API Heat Transfer, we analyze your application and design to your specifications to create a complete customer solution. With multiple technologies, premium brands, and a broad product portfolio, we're able to customize our heat exchanger offering to meet each customer's individual needs. In addition, we offer a complete portfolio of standard products available from TTP, an API Heat Transfer company, and sold through a global network of distribution partners.

API Heat Transfer, a family of high-performance brands

HEAT TRANSFER BRANDS

Airtech

Industrial air cooled heat exchangers

General ThermoDynamics

Air cooled systems

Basco

Shell and tube heat exchangers

Schmidt

Plate heat exchangers and thermal systems

MARKET APPLICATIONS

- Alternative energy
- Data center cooling
- Air cooled compressors
- Dryers
- Mobile equipment
- On-engine cooling
- Oil and gas
- Water cooled compressors
- Chemical and petrochemical
- Power plants
- Refrigeration
- Power sports
- Electric power generation
- Rail
- Turbines
- Air separation
- Sanitary
- HVAC

Distributed products

- Fluid power
- Custom engine cooling
- Agriculture
- Material handling
- Construction

API Heat Transfer, a family of high-performance brands

High-performance heat transfer.

It's who we are and what we do. It's part of our 140-year heritage designing and delivering world-class heat transfer products for nearly every industry. It's bolstered by our worldwide network of manufacturing facilities that provide sales, service, and support. And it's ingrained in a process that has helped customers around the world for nearly a century and a half.

When you work with us, you'll find the performance of our technologies sets the bar for heat transfer products, and our relentless drive to find and create custom heat transfer solutions to meet any industry challenge sets us apart.

See how our performance can improve yours.
